

# BUSHWACKER™ OPTIC COVERS

## RIFLE SCOPES \* BINOCULARS \* FLASHLIGHTS

- Bushwacker™ Optic covers are ideal for rifle scopes, pistol scopes, small spotting scopes, flashlights and binoculars.
- Snap-lock lid prevents dust and moisture accumulation on optic lens.
- **Yellow** style works great in low light visibility and when quick response is needed.
- **Black** style is the perfect choice for marring, rugged field use when low light visibility is not important.
- **Blue** style helps detect blood of wounded or fallen game.
- **Red** style is great for roadside emergencies, directing traffic and varmint hunting.
- **Green** style minimizes eye strain while reading maps, walking to hunting stands or camping.
- Durable, highly stretchable covers fit both the ocular and objective ends with 7 sizes that accommodate 98% of all firearm scopes.
- For aluminum scopes only, moisture may be applied to the inside of the scope cover ring for easier attachment.

### Helpful Hints:

- Bushwacker™ Optic Covers in sizes 5 and 6 come with an adapter ring to fit optics falling between measuring lines. Optics requiring an adapter ring are indicated by an (\*).
- If you have questions or need additional measuring assistance, please call us.
